A unique collision and co-mingling of forces and splendors of nature have created a visual paradise of rock, waters, sand, forest, hillside, climate, greenery, and wildlife. A rare place on earth, where eight of America's most beautiful wild & scenic rivers tumble down through steep canyons, and towering forests on their way to a rocky coastline with wide stretches of sandy beach, before pouring out into the mighty Pacific ocean. Huddling around the mouths of the rivers are picturesque working

ports, made of hillside homes, small waterfront cafe's, vibrant art communities, and more parks per mile than anywhere in the USA. www.wilddriverscoast.com. Take time along the route to stop at various lookouts and view points. The photo opportunities will be amazing. DAY SEVEN

From here you are going to travel inland and travel along Hwy 138, a beautiful country road, following the North Umpqua River to **Roseburg** www.visitroseburg.com. From Oregon's unspoiled coastline to the crystal clear waterfalls and lakes of

the Cascades, welcome to the **Land of Umpqua** – a land filled with authentic adventures you simply won't find anywhere else. In **Reedsport** stop at

the **Umpqua Discovery Center** www.umpquadiscoverycenter.com to learn more about the local and natural history and **Umpqua River Lighthouse** www.umpqualighthouse.org. Right after Reedsport, as you turn inland stop at the **Dean Creek Elk Viewing** area www.wildlifehotspots.com/deancreek.html. Here you will have an opportunity to see a herd of wild elk.

More than 100 years ago, Oregon pioneers, referring to the Indians helping them cross raging rivers, thought Umpqua meant "ferry me across" or "across the waters." When they needed a lift, they would shout Umpqua! Umpqua! Some historians believe the word means "rushing waters" or "thunder water," referring to the region's towering waterfalls and thundering whitewater. Others think that since Native Americans found such a lush land filled with game and water, that Umpqua is Indian for "tummy full" or "I am satisfied." Whatever its origin, modern visitors will be fully satisfied by their experience in the Land of Umpqua.

The scenic drive on Highway 138 is a designated state scenic byway. Take a break in **Elkton** at the **Butterfly Pavilion** www.elktoncommunityeducationcenter.org. Visit the life-cycle display of Oregon butterflies. Walk through the butterfly and hummingbird gardens and circle through the 4.5-acre botanical garden featuring native shrubs and trees planted to represent the climate zones of Oregon. While in Elkton sample wines from **Brandborg**, **Bradley**, and **River's Edge Wineries**. www.umpquavalleywineries.org.

The Land of Umpqua has over 22 wineries. www.umpquavalleywineries.org. The above is just a small sampling. The modern era of grape growing in Oregon began in the Umpqua Valley with the first commercial planting of fine wine grapes north-west of Roseburg in 1961. Today, family owned artisan wineries are creating wines of distinctive quality and character that are receiving international acclaim for the Umpqua Valley.

Overnight in Roseburg www.visitroseburg.com.

Be daring. Enjoy a half or full-day rafting or fishing trip including a lunch on the river's bank. OR.....spend three days

Individuals or groups up to 50 people. Advance reservations required.

Spend an emotional time with orphaned and hurt animals of the wild. Visit **Wildlife Images** www.wildlifeimages.com. Wildlife Images was established in 1981 and is an exciting and immersive excursion destination. Located on 24 acres of "living laboratory" adjacent to the Wild and Scenic portion of Oregon's Rogue River, approximately 12 miles west of Grants Pass, Wildlife Images receives and cares for over 1,000 animals every year. Reservations required.

An afternoon wine tasting in the **Applegate Valley** www.applegatwinetrail.com is another thing that is top on the list of many. **The Applegate Valley Wine Trail**, with over 15 wineries to choose from, starts within 20 minutes of Grants Pass. An absolutely beautiful green valley nestled on the foothills of the Siskiyou Mountain range. This area is the ideal temperature for large bodied varietals and has been producing award winning wines for years. The north side of the Applegate offers exceptional wineries all within a few minutes of each other. Lunch is served at **Troon Vineyards**, by Master Chef Tim Keller and **Schmidt Family Vineyards** overlooking the perfectly manicured gardens.

And then...let's not forget.... lunch at **Taylor Sausages** www.taylorsausage.com

They are well known for their incredible smoked meats and jerky's, locally baked fresh breads, and local cheeses. Our suggestion is to make Taylor's your first stop. Order ahead and pick up a picnic lunch to enjoy at **Bridgeview Winery** overlooking the duck pond. Your choices on how you spend your day are endless.....

For an extended three day itinerary for Grants Pass and a list of recommended hotels and restaurants visit www.southernoregon.org/tours.

Overnight in Grants Pass.

DAY TEN

Today you are heading for Oregon's only National Park, the beautiful **Crater Lake National Park**. www.nps.gov/crla/index.htm. On your way there experience the unusual at the **House of Mystery at the Oregon Vortex** www.oregonvortex.com. The House of Mystery itself was originally an assay. Going back to the days of the Indians, known to them as "The Forbidden Ground." A spherical field of force, half above ground and half below where the House of Mystery sits and unusual conditions exist.

Now continue your journey to Crater Lake....

Crater Lake is the deepest lake in the United States and the ninth deepest lake in the world. Crater Lake has inspired people for hundreds of years. No place else on earth combines a deep, pure lake, so blue in color; sheer surrounding cliffs, almost two thousand feet high; two picturesque islands; numerous hiking trails; historic lodging; three restaurants; and a violent volcanic past. It is a place of immeasurable beauty.

Late June through September the **Wizard Island Boat Cruise** around the lake is a must...but it is not for the weak at heart. The walk is a steep one mile down to the docks. Seeing Crater Lake on a parallel level is just an amazing site. If you have the stamina go for it! You can even take a picnic lunch and spend the afternoon on Wizard Island. There are also other incredible trails surrounding the lake all at different levels of expertise. Stop by the Park Rangers Information Booth to pick up trail maps....and just enjoy this gorgeous place on earth.

The ride back from Crater Lake to **Medford** www.visitmedford.org along Hwy 62 takes approximately 2

hours, unless you stop off at **Beckies Restaurant** www.unioncreekoregon.com/beckies/beckies.htm, a mountain café, in Union Creek for a slice (or two or three....) of their famous homemade pies! Now off to **Natural Bridge** www.southernoregon.com/waterfalls/naturalbridge.html, just

minutes south of **Beckies Café**. This natural passage was the only way Native Americans could cross the roaring Rogue River. The water fiercely crashes into underground caves and then like magic does a disappearing act where the river vanishes underground.

A few miles south of Natural Bridge (and just minutes off of Hwy 62) follow signs to **Mill Creek Falls**....now directly cross the bridge and park your car. Now walk 15 steps back to the bridge and be amazed. Mill Creek Falls is called "**Land of the Giant Boulders**" and you'll see why. Take it all in.
